Your customers will be here.

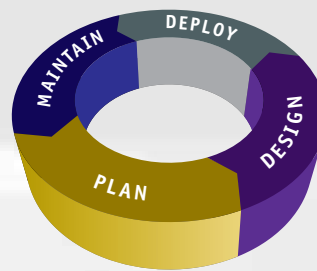

Will you?

www.o2wireless.com

No matter where your customers go, you can be there with o2wireless Solutions. We've changed our name from Clear Communications Group to better represent how we are meeting the changing needs of the telecommunications industry with end-to-end, integrated network solutions. Want to exceed your customers' expectations?

o2wireless Solutions.
We're already there.

Our end-to-end integrated network solutions will help you manage every phase of developing and maintaining wireless networks—quickly and cost-efficiently.

PLAN your network with o2wireless. – Our consultants work with you to create a pre-deployment plan that successfully addresses all the issues that affect your business. We also provide auction services for wireless licenses and valuation services for acquired licenses.

DESIGN your network with o2wireless. – We offer a full suite of services for the design of wireless telecommunications networks. With professional engineering licenses in all 48 contiguous states, we know how to get the job done quickly.

DEPLOY your network with o2wireless. – Our total approach includes everything from site development and engineering demands to third-party vendor management and spectrum-clearing issues. And our proprietary online tools let you access real-time data about your project's deployment.

MAINTAIN your network with o2wireless. – Post-deployment radio frequency optimization. Network operations and maintenance. Remote monitoring. Internal network staff training. Our services include all of the above to help you keep your network running smoothly.

For more information about our end-to-end integrated network solutions, please call 1.800.xxx.xxxx
